

23/07/2021

Dear Prof. Gauthier,

We would be grateful if you would consider our manuscript "Examining the role of depth information in contextual cuing using a virtual reality visual search task" for publication in the Journal of Experimental Psychology: Human Perception and Performance.

The following reviewers would be well placed to judge the quality of the submission:

Prof. Vanessa G Lee (formerly Yuhong Jiang)

[jiang166@umn.edu](mailto:jiang166@umn.edu)

University of Minnesota

A/Prof Evan Livesey

[evan.livesey@sydney.edu.au](mailto:evan.livesey@sydney.edu.au)

University of Sydney

Dr Markus Conci

[conci@psy.lmu.de](mailto:conci@psy.lmu.de)

University of Munich

All of the materials associated with this work are available at the following repository: [github.com/tombeasley/CCVR](https://github.com/tombeasley/CCVR). All analyses can be reproduced from the manuscript files at this repository. The manuscript conforms to APA 7 standard.

Yours sincerely

Tom Beesley (on behalf of all authors)
